Autumn 1925 Planting List

Bulbs, Shrubs, Hardy Perennials, etc., planted in October or early November, will bring beautiful flowers next April, May and June. Fall planting assures profuse blooming next spring.

THE WEAVER GARDENS CO.

**Nurserymen, Landscape, Flower and
Vegetable Gardners.**

**Gardens, Office and Salesroom
1502 Woodrow Avenue—R. 9, Wichita, Kans.**

TERMS OF SALE

Terms are cash with order, prices are net, no discount.

Catalogue prices includes Packing charges and all mail or express charges necessary to **Deliver Prepaid** where order amounts to \$1. and safe delivery is guaranteed—This is a big saving to you—

We guarantee stock to be true to name and in good condition when it leaves our grounds.

While we exercise the greatest care to have every tree, shrub or plant true to name, and are ready, on proper proofs, to replace anything sent out by us that may prove untrue to label, free of charge or refund the money paid for it, it is understood and agreed, between purchaser and ourselves, that we are not to be held liable for any greater sum than paid us for said trees, shrubs or plants, that prove untrue.

All orders are accepted on condition that they shall be void should injury befall the stock from frost, hail, fire, or other causes over which we have no control.

This catalogue cancels all sales conditions and prices quoted in previous catalogues.

Certificate of inspection with each shipment.

Total amount of order must aggregate \$1. or more for us to deliver all charges prepaid. We do not sell less of any article than the amounts offered in this catalogue except that 6 plants are sold at dozen rate, 25 at hundred rate. Quantity prices does not apply where selection includes only one or two plants of several different kinds, in such instance Each price should be remitted.

BULBS

In no other class of Plants are there such unusual possibilities for extreme satisfaction and enjoyment as may be found in spring flowering bulbs. Ours are imported from Holland. Pedigreed stock, the best we can buy.

Black Berry Lily—*Belancanda Chinensis*. Each 35c;3\$1.

HARDY HERBACEOUS PERENNIALS

“LIVE OVER WINTER” FLOWER PLANTS

Such plants may be allowed to remain permanently in the open ground, some are evergreen but mostly the foliage dies down to or near the ground each autumn, coming forth again with renewed vigor the following spring.

Year after year the perennial plants reappear and flower abundantly. As each variety has a fixed time of blooming, a selection of plants can be made that will give flowers to cut and enjoy each day of the season—from earliest spring until fall. They require little attention, for a light mulching with fertilizer in the fall and some care as to the weeding and watering during the growing season is usually sufficient. In preparation of soil for planting perennials, dig deep and plant in well pulverized soil, work in rotted manure if available. Frequent cultivation, keeping out all grass and weeds are the secrets of beautiful flowers.

100 CHOICE PERENNIALS \$15

You, without doubt, have wished for a flower garden. This special offer affords an opportunity for every lover of flowers. The little sketch shows how to produce with the layout and planting of the twelve varieties of perennials in our offer, the taller growing ones being placed in the rear, the mediums in the center and the low growing one in the front, as shown by the numbers 1, 2, 3, etc., each of which refers to one of the twelve varieties. These plants should be planted approximately a foot apart. Any good garden soil is satisfactory, the whole bed being well spaded before planting.

1. 8 Spring Daisy, *Chrysanthemum* specie. 3ft. White.
2. 8 *Anchusa*, *Italica* Dropmore. 3ft. Very blue.

IRIS

(Pogon or Tall Bearded)

NO GARDEN IS COMPLETE WITHOUT IRIS

There is a stateliness of extreme beauty and splendor about the new Iris. Beautiful orchid-like flowers possesses a most pleasing fragrance. The Iris is of easiest culture. No flower is more satisfying for home decoration. If cut in the bud when about to open, the flowers will expand in the house in this full richness of color and last a long time. Every bud will blossom, replacing with a fresh flower those which fade. The stiff strong stems and excellent keeping qualities are advancing them into rapid favor as a cut flower. No flower deserves more extensive planting. Our list includes desirable standard and newer sorts.
